

Tyler and Deanna

Hi,
we're Tyler and Deanna and we wanted to thank you for taking the time to read our profile. We are trying to think of what you may want to know about us. Well . . . we are open people so having an open adoption feels right to us, we hope it will feel right for you as well. We have been married for 9 years already, but we were a couple for 6 and a half years before that, for a grand total of over 15 years together. We met at Rocky Point where Deanna was working at a Fish and Chip shop. Tyler worked near by and would come for lunch. Deanna worked up the courage to ask him his name and he just pointed to his name tag on his shirt and we both laughed. We want you to know about Tyler's hilarious sense of humor and Deanna's drive and compassion for her patients as a nurse. We hope this profile expresses our love of travel and disney, but mostly our love of family.

We have two cats names August and Dash. August is our Tabby Cat, she doesn't like it when Tyler leaves the house and will wander room to room Meowing after he leaves. Dash is our black cat and would be more than happy to cuddle on a lap 24/7.

Deanna is 35 years old, Chinese but born and raised in BC. Deanna is a registered nurse with two subspecialties in Critical Care and Emergency. She works in an Emergency room in the lower mainland. She chose this career to help people and make a difference. Deanna is very close to and the youngest of her 4 siblings.

Tyler is also 35 years old. He has a certificate in Criminology. Tyler is a First Responder/ Security for Coast Mountain Bus. He chose this career because it offers the opportunity to provide for his family now and in the future. Tyler has an older brother. Tyler is close to both his mom and step Dad, as well as his Dad whom he visits frequently in his care home.

Together we really enjoy Broadway Musicals, Geo-caching or a night out at the movies. We enjoy games night and escape room with friends. We like to relax together at night by building lego sets and puzzles.

Our commitment:
We promise to love and
nurture your child forever.
We will help and guide
them to achieve anything
they can dream up.
