

Meet Chris, Erika & Caleb

About Us

Chris and I met in the summer of 2013 on an online dating website (yes, they do work). We totally fell in love over our interest in travel, the outdoors, and our many shared values. We moved in after a year together and were fortunate enough to have Caleb 2 years later. It's been an amazing journey so far and quite the ride which has taken us from Vancouver to the Okanagan. Over the years we've grown even closer together as we have become parents, and this has brought a new and amazing dimension into our relationship.

Our Lifestyle

We live in a beautiful family friendly neighborhood in the Central Okanagan. Our home has a backyard and is close to many parks as well as walkable to an elementary school. We enjoy walking/running on the many trails around us, snowshoeing in the winter and swimming and being near the lake in the summer. We spend our free time as a family together. We set up playdates with other kids and our friends, enjoy the outdoors, read together and spend time with our extended family who live nearby.

About Chris

I was born in Calgary Alberta. I come from a relatively small family with my sister and mother. I did not know my father as he passed away when I was young. Although my mother and sister live in Ontario, we speak on a weekly basis and I consider us to be close.

I've work as a Business Consultant for a large family restaurant chain for over 15 years now. I love what I do as it allows me to work with franchisees, operators and their families growing their businesses and it allows me flexibility to spend time with my own family.

Chris (from Erika)

Chris is an amazing man and father. He is kind, thoughtful and intelligent. He is generous and thinks of others before himself. He is a wonderful father because he cares so much, and he loves spending time with our son. He always is able to make Caleb laugh and their giggles can be heard throughout our home.

About Erika

I am a mix of city and country. I have lived on a farm in Ontario and on a lake, in apartments in the city and now in a family home in BC. My family has always been an important part of who I am. We spent most mealtimes and weekends together either swimming, skiing or just hanging out together. They taught me many important values and I remain close with them today. I got the travel bug after university and spent a number of years living abroad. As a teacher, I have been able to see a lot of the world and experience many different cultures which I try and include aspects of in my own life

My career allows me to have summers off. This enables us to spend a lot of quality time with our little family whom we hope to grow through adoption.

Erika (from Chris)

Erika is loving, has an amazing character and is always there to help others. She is a wonderful mother to Caleb, and there's no doubt that she would be a stellar mom to your child as well. I admire her for how she always listens, offers support and is always there when people need her.

Motivation and Openness Our motivation for adoption is simple, we've always wanted a larger family but due to pregnancy difficulties we are unable to do this ourselves. We can't imagine how difficult this decision is for you. We want you to know that we are open to the level of openness with which you feel comfortable and we will respect your wishes either way. We hope that we can share our life with another child.

Thank you for taking the time to consider us!
